3M Prestige Exterior Series - Performance & Durability.

Long lasting comfort, savings and aesthetics at a whole new level with 3M™ Sun Control Window Film Prestige Exterior Series.

- ▶ Non-metalized technology applied to film eliminates corrosion, no need to edge seal, and no signal interference
- ▶ High visible light transmission providing excellent aesthetics and unmatched heat rejection on dual pane glass
- ▶ Low interior and exterior reflectivity enhances views while maintaining exterior appearance
- ▶ Up to 97% infrared rejection and 60% heat gain through windows providing energy savings and enhanced comfort
- ▶ Helps extend the life of furnishings by significantly reducing harmful UV rays, the largest cause of fading

Glass Type (All 1/4") Dual Pane	Visible Light			Total Solar Energy Rejected			UV Light Rejected	Glare Reduction
	Reflected (Interior)	Reflected (Exterior)	Light Transmitted	Infrared	Normal	60 Degree Angle		
PR70X	14%	12%	63%	97%	61%	70%	99.9%	20%
PR40X	13%	7%	37%	97%	71%	78%	99.9%	53%

Superior exterior durability
 metallic films can't match.
